## **KLOTZ DIGITAL COMPLETES AND DELIVERS SEVERAL PROJECTS IN CHINA**

**Kuala Lumpur, 1 December 2004 – KLOTZ DIGITAL Asia** recently completed and delivered three of its best selling VADIS D.C.II digital on-air consoles and VADIS 880 mainframes to **Tangshan Radio**, a radio station with three on-air studios in Hebei Province of China. Supplied to Tangshan Radio via KLOTZ DIGITAL's distributor, Evertop International Technology Ltd., the consoles and mainframes are configured for use as stand-alone on-air studio mixing consoles for radio broadcast applications. The three VADIS D.C.II consoles and VADIS 880 frames are located at three different studios and the VADIS 880 frames are used as the audio engine. Each of the studios is connected with fibre-optic cable in a ring configuration for the sharing of audio sources between the studios.

**Hubei Radio, China**, purchased its fourth and fifth 16-fader VADIS D.C.II digital on-air consoles and VADIS 880 mainframes from KLOTZ DIGITAL via KLOTZ DIGITAL's distributor, Evertop International Technology Ltd. These purchases are part of the radio station's ongoing process to upgrade all of its studios with VADIS D.C.II consoles. Hubei Radio has six on-air studios operating as stand-alone studios, five of which have already been upgraded. Plans exist to set-up a Master Control Room in the near future once all six studios are upgraded with VADIS D.C.II consoles.

###

**KLOTZ DIGITAL** is the world leader in AudioMedia Platform Technology. KLOTZ DIGITAL manufactures a variety of digital audio mixing consoles, the VADIS AudioMedia Platform, and VARIZONE systems for music distribution, paging and safety announcement installations. KLOTZ DIGITAL has 15 years experience in manufacturing and installing digital radio consoles and audio infrastructures. KLOTZ DIGITAL has over 1250 digital radio consoles and more than 1000 VADIS frames in service today.
