KLOTZ DIGITAL AND HHB COMMUNICATIONS TEAM UP IN CANADA

Norcross/Georgia, August 2005 – KLOTZ DIGITAL Audio Systems Inc. recently appointed HHB Communications, Toronto, as its authorised and exclusive value added distributor for broadcast products in Canada. Headquartered in London, UK, HHB founded its Canadian subsidiary in 1997 and meanwhile is one of North America's leading broadcast system suppliers, with an enviable list of customers, among them TV and radio broadcast companies, post production facilities, recording studios and sound engineers as well as industrial and academic establishments. Effective immediately, HHB will be selling KLOTZ DIGITAL's broadcast product range including the VADIS product family and the new AEON on-air console. Combining the know-how of highly trained specialists and an unbeatable technical back-up HHB can provide all-digital solutions, fully integrated and installed, on a turnkey basis.

Speaking for HHB Communications President Dave Dysart said, "We are excited about the opportunity to launch KLOTZ DIGITAL's radio broadcast products in the Canadian market. The product range fits our profile perfectly and our customers will benefit greatly from the abilities KLOTZ DIGITAL's products offer ranging from resource sharing, to reducing operating cost and easing the customers' workflow management processes."

KLOTZ DIGITAL Audio Systems' President Karl Schoning comments on the distribution agreement, "HHB's extensive experience in selling and installing professional audio equipment puts us in the position to gain direct and invaluable insight into the specific needs of Canadian audio and broadcast professionals. This is an advantage that gives us the necessary support and powerful resources to successfully supply solutions to our Canadian customers."

AEON Audio Networking Console:

Combined with an integrated state of the art router, AEON provides a cost-effective mixing solution for small to medium market radio stations. AEON is based on KLOTZ DIGITAL’s ultra slim console modules (1 inch / 2.5cm thick) allowing flexibility in console layouts and studio set up. AEON is available with 8, 12 and 16-fader control surfaces with professional features like 100mm faders, alphanumeric displays with 16 characters in two lines per channel, large ON/OFF buttons, CUE/PFL, programmable TalkBack functions, freely assignable routing and function key and status indication LEDs for the most important parameters and functions. The “AEON Setup Tool” software is included and enables users the configuration of the system exactly according to one’s personal requirements.

Founded in 1976, **HHB Communications** is Europe's leading supplier of professional audio equipment to the broadcast sector, post production facilities, recording studios, sound recordists, industrial and academic establishments. HHB also develops and distributes a range of innovative own brand products, including the PORTADRIVE 8-channel 24-bit/96kHz location sound recorder, the PORTADISC professional portable MD recorder, the CDR830 BurnIT and BurnIT PLUS CD recorders and HHB Professional Recording Media. HHB operates from headquarters in North West London with a subsidiary in Toronto Canada.
