AEON TO BRING OUT THE BEST OF KRAZY COUNTRY'S BROADCAST STUDIO

Norcross, Georgia/Santa Barbara, California, February 2006 – KRAZY Country 105.9, Santa Barbara/Santa Maria, California, recently purchased and installed an AEON audio networking console from KLOTZ DIGITAL replacing an older analog mixer in the facility's On-Air studio. As an IBOC HD FM Station, KRAZY Country attaches great importance to use the best available consoles in order to take advantage of new technology which will allow them to provide new services for their listeners. The station broadcasts in full CD digital quality and HD Radio which allows them to stream weather and information with music in real time. "We examined a number of leading products for our station's On-Air requirements and ultimately we chose AEON, a mixer not only compatible with this high-tech environment, but also in the position to bring out the best of our equipment", explains KRAZY Country's General Manager Shawn Knight as to why the AEON was selected. "Outstanding, our morning show stated that it's like having a work-of-art as the center piece in the control room. The AEON was easy to set up and we were astonished how fast we could put it into operation. Setting up the original analog board took two and a half days, the AEON took four hours." Furthermore it is important for Mr. Knight to point out that there is another reason, why KRAZY Country decided on an AEON. As he says, excellent customer service including the ease of reaching qualified and dedicated staff at KLOTZ DIGITAL and the ability to reach the factory directly made the final decision for KLOTZ DIGITAL much easier.

The pictures show the AEON console in KRAZY Country's studio and Stefan "Carp" Carpenter, PD of KRAZY Country 105.9 working with the AEON.

###

AEON Audio Networking Console:

Combined with an integrated state of the art router, AEON provides a cost-effective mixing solution. AEON is based on KLOTZ DIGITAL's ultra slim console modules (1 inch / 2.5cm thick) allowing flexibility in console layouts and studio set up. AEON is available with 8, 12 and 16-fader control surfaces with professional features like 100mm faders, alphanumeric displays with 16 characters in two lines per channel, large ON/OFF buttons, CUE/PFL, programmable TalkBack functions, freely assignable routing and function key and status indication LEDs for the most important parameters and functions. The "AEON Setup Tool" software is included and enables users the configuration of the system exactly according to one's personal requirements.

KRAZY Country 105.9, located in Santa Barbara/Santa Maria, California, is a so called country-formatted commercial radio that plays today's country and yesterday's favourites. Addressing its program to the 18-49-segment the station has the largest coverage area of any Country station on the Central Coast from the Ventura River to Pismo Beach and the Five Cities. KRAZY Country 105.9 is operated by Knight Broadcasting Inc. Contact: KRAZY Country 105.9, 1693 Mission Dr. #202 Solvang, Ca 93463. Internet: www.krazfm.com
